

Talk to Smruti.

Put the headset on and have a real conversation with an Odia speaker. She'll teach you words, then ask you to say them back.

TRY SAYING

"How do you say hello?"

- "What's your name?"
- "Teach me to count."
- "How do I say thank you?"
- "Tell me something about Odisha."
- Then **say the Odia word back** — and watch her face light up.

ଥ

Tap it. Hear it.

Every letter, digit, colour and greeting on the screen speaks when you touch it. No headset, no queue — walk up and start tapping.

Say hello

Vowels

Letters

Numbers

Colours

Family

ନମସ୍କାର

namaskaara

hello

ଧନ୍ୟବାଦ

dhanyabaada

thank you

କେମିତି ଅଛୁ?

kemiti achha?

how are you?

ମୁଁ ଭଲ ଅଛି

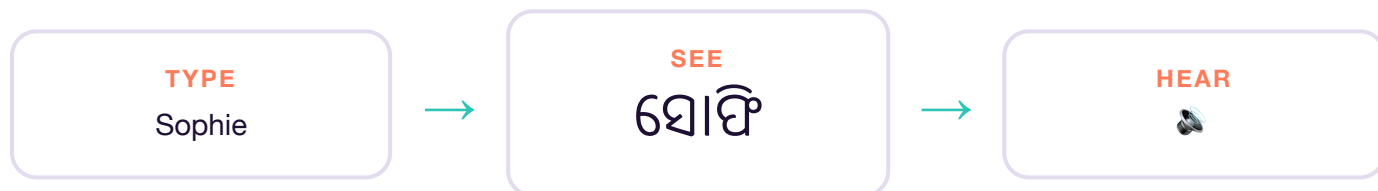

mun bhala achhi

I am well

Your name, in Odia.

Type it in. Watch the letters turn round. Hear an Odia speaker read your own name back to you — probably for the first time in your life.

THEN TAKE IT WITH YOU

Copy it onto a card by hand.

- Cards and pens are on the table.
- Go **slowly** — the curves are the whole point.
- Yours to keep. Show whoever brought you.
